22 August 2005

Dear Susan,

Thank you for taking the time last week to go over the key points relating to the Edinburgh Airport Rail Link (EARL) project.

As a large company and employer in the country BT Scotland recognises the importance of EARL to the economic competitiveness of not just the Edinburgh area and the Central Belt but also to the whole of Scotland. First class communications are a critical component of Scotland's future and I believe that the EARL project will form an important part of improving our communications for the long term.

BT Scotland is fully supportive of the implementation of this major initiative and should you wish to discuss it further at any time then please feel free to get in touch.

Yours sincerely

A handwritten signature in cursive script that reads 'Brendan Dick'.
